Snowmobile Club News

March 2019

A Message from our club...

President

Hope everyone has been able to get out and enjoy the snow. What a weird year, it just goes to show that you can't out guess mother nature.

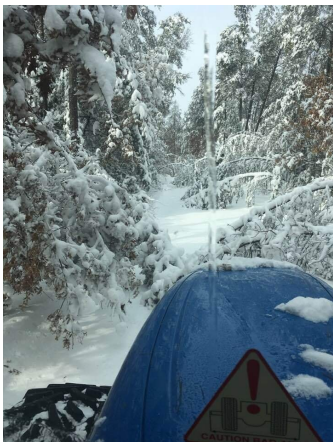

The Radar Run held at Anchor Bay was a huge success. Considering the trails were closed and the temps were cold... we still had a fantastic turn out and commitment by the racers. The weather provided us with enough snow for a snow track besides the ice track. I'd like to thank all the racers who came and participated besides all the volunteers who made this a success.

The recent storm at the end of February created some challenges for the trail system. This type of scenario is like a crisis management situation. A call to action was made and I'm thankful to see all the volunteers who stepped forward to help clear trails so our groomers could get out and maintain the trails. Without each and everyone of you, this accomplishment would not have been possible. It just goes to show that snowmobilers are a dedicated loyal group who can organize around a challenge.

Speaking of challenge, I ask that now that many of you might have been able to get out and become involved, please consider becoming a support person for the trail system. We are looking for volunteers to take small sections of trail and work with the trail boss. We are having some turn over in this area and could truly use some help. There already is a system in place and we'll help train/teach. Please give a call if you would like to learn more.

Lastly, we'll be having our nominations and elections for the board at our March meeting. Let's plan a great turn out so we can vote and install those positions at the club meeting on Thursday 3/14/19 at Kellner International Bar and Grill at 7pm... see you there!! The February meeting minutes may be found [here](#).

Thanks, Dan Guck 715-451-0479

Mark Your Calendars

March 14 - Regular Meeting
7pm @ Kellner International

April 11 - Regular Meeting
7pm @ Anchor Bay Bar & Grill

May 9 - Regular Meeting
7pm @ TBA

Did you know that this season we have...

...had our trails open 24 days (we opened on Feb. 11)

...over 200 hours of grooming time in.

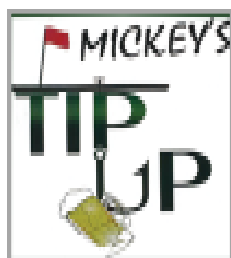

...used 1,500 gallons of fuel with another 300 having been delivered this week. On average a gallon costs \$2.77. Grooming our entire trail system 2-1/2 times would cost around \$300.

Social Media (Facebook)

Occasionally, I will post something for you to consider while using social media. Most of you reading this newsletter are probably connected with our club on Facebook. It's a great tool for us in communicating with all of our members. However, here is something for you to consider.

We know we are preaching to the choir. Those of you that are following our posts are most likely the ones riding within the trail markers, obeying signs, and respecting our landowners. So, we need to try to reach those who are not on our site by "sharing" some of our club posts to our private page so that others (most likely those who are not part of a club,) may see them and think twice about what they are doing. Just something for you to consider.
